THE STORY THAT STARTED IT ALL

In 1981, Yossi Ghinsberg was 22 years old — swept over a waterfall deep in the uncharted Bolivian Amazon and left completely alone. For three weeks he survived on instinct, will, and the refusal to give up. That story became the bestseller **Jungle**, a Hollywood film, and 25 years on the world's main stages. **Google. Microsoft. MDRT. YPO. The All Blacks.** Audiences of 8,000 have sat in absolute silence. He has been called the most unforgettable speaker they have ever seen. He simply tries to be honest.
